

نيوم NEOM

## NEOM HYDROGEN & GREEN FUELS

.....  
RALPH DE HAAN  
DIRECTOR

# NEOM - AN ACCELERATOR TO HUMAN PROGRESS

One of the first climate positive societies, powered by abundant low-cost renewable energy

An international community and home to the greatest minds

Unrivalled commitment to protect nature and incorporation of nature into urban space

Laws conducive to a modern and vibrant economy and society

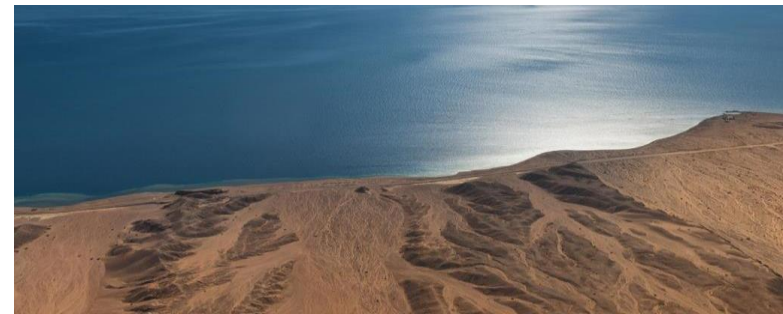

The worlds innovation hub, utilizing and driving most advanced technologies

## NEOM - A PRIME LOCATION

In northwest Saudi Arabia, ideally located at the crossroads of the world

# BRINGING A CIRCULAR CARBON ECONOMY TO LIFE

Record low renewable energy prices and highest combined capacity factors

A dedicated energy strategy based on zero-liquid discharge water technologies and 100% renewables

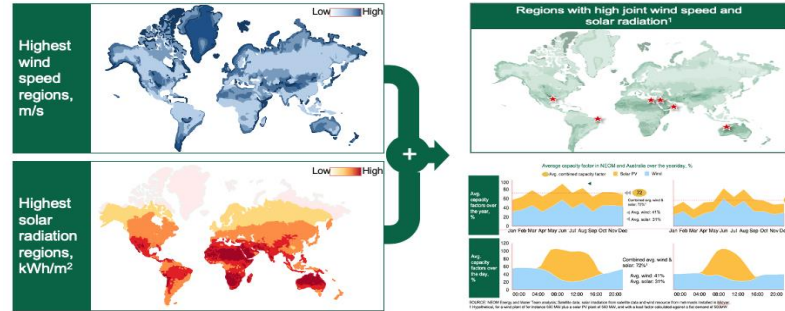

An ambition to become the worlds largest producer and exporter of green hydrogen, chemicals and fuels

An accelerator for 2<sup>nd</sup> horizon decarbonization technologies and the next wave in energy transition

An integral part of the kingdoms ambition to become the worlds largest supplier of clean energy

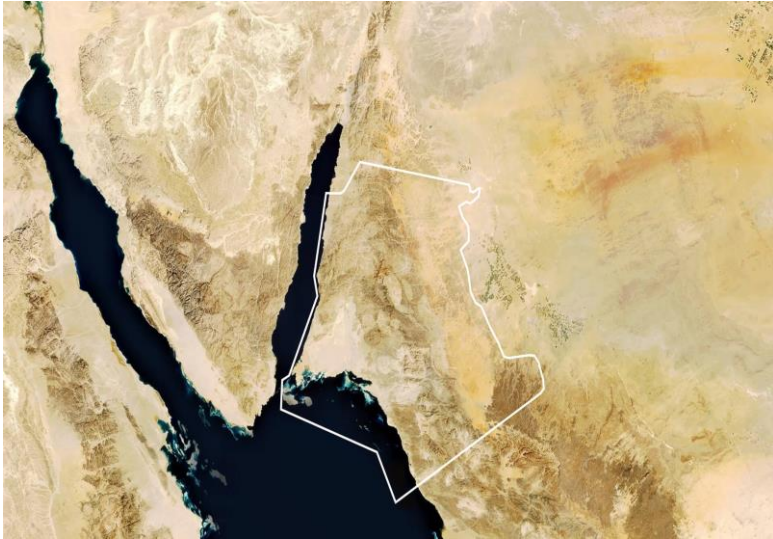

NEOM

# THE FUTURE HAS ALREADY STARTED

## CURRENT STATUS NEOM

Final stage for master plan and regional implementation roadmaps

Construction already started for several projects for energy and infrastructure around NEOM Bay

Final stage for implementation of a lighthouse project for integrated green hydrogen and e-fuels

Accelerated scale-up preparations to kick-start a green hydrogen and e-fuels supply chain at scale
